LB 733

The one million dollar level is the same old problem of limited revenue, but in addition to that and equally important, I think as I understand discussions with some of the veterans groups that while they would prefer the two million that this additional one million dollars will provide sufficient revenue to meet the needs that they are projecting for the program during the coming year. I should point out, as everyone knows, the use of these funds is not the principal, but it is all invested and it is the return on the investments that are disbursed under the Veterans Aid Program.
